Today

PLANT YOUR TREES
FOR TOMORROW!!

R. R. Shaw, Librarian
U.S. Dept. of Agric.
Washington 25, D. C.

TO YOU WHO ENJOY TREES *and* SHRUBS

**COLORADO BLUE
SPRUCE**

One of the most
popular trees.
Grown from seed.

JAP YEW

A tree of rich
color which it
retains thru the
year. Can be
shaped and
trimmed.

**AMERICAN ARBOR
VITAE**

Green is the color of
this tree but there is
some variation. Grows
well in sunlight, or par-
tial shade.

We offer this season quite a
few tree and shrub seeds
which we have not previ-
ously listed, most of them
popular ornamentals.

To make it more con-
venient for those who
wish to try some of
these different seeds
we are offering them
in sizes from hobby,
about 100, 25c, stand-
ard, about 500 seeds
75c; Senior, about 1000
seeds \$1.00; Jumbo,
about 2000 seeds,
\$1.75; Giant, about
5000 seeds \$3.50; and
Twin Giant, about
10,000 seeds \$6.00, all
postpaid. If you have
lost or mislaid your
planting guide ask for
another.

We have separated these
shrubs and trees into two
main groups — hardy,
first and those listed as
Pacific Section not so
hardy; but we suggest
that you consult your
Forestry Department, or

Conservation Agent, or County Agent as to suitability
in your section. If you fail to do that, please look
upon your planting purely as an experiment.
